

MPEP[®]
M. P. ENGG. PRODUCTS
AN ISO 9001 : 2015 CERTIFIED COMPANY

COMMITTED TO **EXCELLENCE**

**LEADING MANUFACTURER OF
POWER PLANT MECHANICAL SPARES**

ABOUT COMPANY

We M.P. Engineering Products an ISO 9001 -2015 organization specializing in manufacture and supply of spares like BHEL type BAWL Mill & ESP. involving fabrication, casting & Machining, having well equipped workshop at Howrah. However, we mentioned here some of our supplied item likes BAWL Mill spares: Journal Shaft, Upper Journal Housing, Lower Journal Housing, Multiple Port Outlet, Liner, Centre Feed Pipe, M.S. Coal Pipe, Drive Sprocket, Grinding Ring Lock Nut, Feeder Discharge Chute etc. & ESP. Inner Arm, Outer Arm, Plain Bearing, Pin wheel, Set Ring for collecting rapping, grip coupling, Shock Bar, Bush Bearing etc.... We have a pool of trained and specialized Engineers and Technicians who are expert to develop & design new items as per customer specification and sample.

Our Products

ESP Rapping Drive Pinwheel

The pinwheel used in mechanical rappers consists of a large weight that is lifted to gain potential energy and then released, allowing it to fall and collide with an anvil creating a shock to dislodge caked-on dust.

Journal Head Skirt

Leveraging on our vast infrastructure facilities, we are able to offer a wide range of journal head skirts that is available at highly competitive prices. Easy to mount and dismantle, these skirts find wide applications in Power Plant, we manufacture these skirts using the latest machines.

ESP Hopper heaters

Hoppers are part of ESP and are located at the bottom of ESP. The function of hopper heater is to heat the hopper so as to Prevents moisture to condensate from getting collected in it Removes fly ash from precipitator Hopper heaters can be provided with reflector plates for efficient heating in the hopper

ESP Shock Bar Assembly

MP ENGG supply 300 pitch and 400 pitch electrostatic precipitator shock bar for rapping system of esp spares.

Mild Steel Grip Coupling for ESP suitable For BHEL, Alstom, Flakt

Usage: ESP

Type of electrostatic precipitator: Dry ESP

Type: COUPLING

Orientation: Horizontal

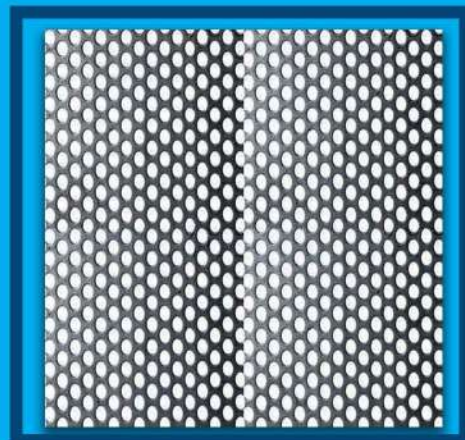

Material: Mild Steel

Country of Origin: Made in India

ESP Gas Distribution Screen Plate

Owing to our affluent knowledge, we are capable of providing ESP Gas Distribution Screen Plate. Moreover, the presented series of products is properly checked on varied industry standards to make sure the longer life.

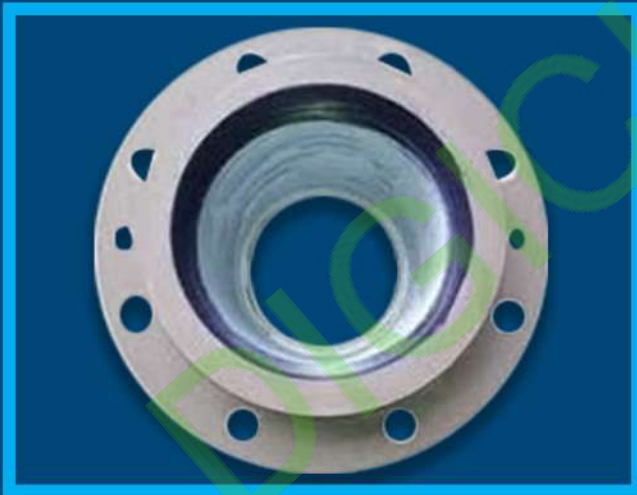

EPS Outer Arm

MP ENGG is the leading manufacturer of ESP Outer Arm. These products are identified among patrons for their noticeable features such as longer life, durability and nominal cost.

Bolted Inner Arm for ESP, For Electrostatic Precipitator

MP ENGG regularly manufactures & supplies Emitting Rapping Hammer (Tumbling Type) for all make of ESPs. Emitting Rapping Hammer will be manufactured with various hammer diameters like 90mm, 130mm, etc. The customer has been the focus of all our activities and Customer Satisfaction has been the driving force for our performance.

Upper Journal Housing

With the years of experience and vast knowledge, we are involved in manufacturing and supplying a wide range of Upper Journal Housing in Howrah, West Bengal, India. The entire range of housing is made using high quality raw material sourced from reliable vendors of the industry. One can avail this range of us at the most competitive rates.

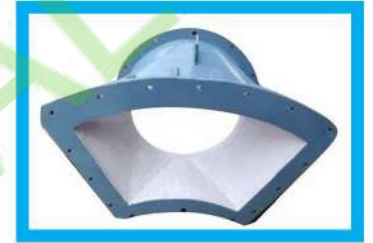

Journal Shaft

MP Engg. offer, a wide range of roller shafts that are designed as per customer specification to withstand extreme working conditions. Fabricated using high grade material of EN group i.e. EN-24, these shafts ensure excellent performance and long service life. To meet the diverse requirements of power plants, these roller shafts are available in various sizes and specifications.

Multiple Port Outlet

M.P.Engg. capable of manufacturing MPO for various designs of 210MW, 300MW, 500MW and 660MW and 800MW mills based on buyers drawings. We can also supply exact designs as per samples and provide fitment guarantee for the same. Our non-ceramic MPO ensures excellent performance and long service life. To meet the diverse requirements of power plant.

Lower Journal Housing

M.P.Engg. product expertise in manufacturing and supplying a top quality of Lower Journal Housing as per customer specification to various SEB in India. We develop our complete range with keeping in mind the prevailing trends and standards of the market. For the convenience of our valued customers, we offer a superior quality range which are recognized for their low maintenance and ease operations.

Air Port Ring Assy

M.P.Engg. Product are capable of manufacturing AIR PORT RING ASSY for various designs of 210MW, 500 MW & 660 MW mills based on buyers drawings & specification. We can also supply exact designs as per samples and provide fitment guarantee for the same. Our presented products are enormously employed owing to their longer service life and durability.

Esp Shock Bar Assembly

MP ENGG supply 300 pitch and 400 pitch electrostatic precipitator shock bar for rapping system of ESP spares.

Center Feed Pipe

M.P.Engg. Product are capable of manufacturing upto 2.5 meter length Centre Feed Pipe using SS-304 material for body and M.S. for flange 12 mm thick of 210MW, 500 MW & 660 MW mills based on buyers drawings & specification.

Bowl Extension Ring

M.P.ENG.G.PRODUCT engaged in manufacturing and supplying of Bowl Extension Ring Segments to various Power Plants as per customer drawing & specification. This product is manufactured using high quality raw material with the help of advanced technology.
